Project Title	Funding	Institution
Anatomy of primate amygdaloid complex	$81,333	University of California, Davis
Autism: Neuropeptide hormones and potential pathway genes	$186,260	University of Illinois At Chicago
Autism and folate deficiency	$109,875	Texas A&M University
Autism in adolescents	$2,576	University of California, Los Angeles
Behavioral, physiological & neuroanatomical consequences of maternal separation	$28,536	Emory University
Bioinformatics/ISAAC	$300,000	Autism Speaks
Central vasopressin receptors and affiliation - 5833	$21,379	Emory University
Central vasopressin receptors and affiliation - 5853	$21,379	Emory University
Cerebral asymmetry and language in autism	$2,576	University of California, Los Angeles
Core D: Molecular genomics core	$57,849	University of California, Davis
Core E: Statistical analysis core	$15,624	University of California, Davis
Development of genomic resources for prairie voles	$277,200	Emory University
DNA methylation and other epigenetic studies of autism brain	$29,000	Baylor College of Medicine
Early biologic markers for autism	$60,000	Kaiser Foundation Research Institute
Effect of oxytocin receptor inhibitor (Atosiban) during the perinatal period and prevalence of autism spectrum disorders	$150,000	Hebrew University
Epigenetic interaction of MECP2 and organic pollutants in neurodevelopment	$424,863	University of California, Davis
Epigenetic regulation of the autism suspectibility gene, Engrailed 2 (EN2)	$117,000	University of Medicine & Dentistry of New Jersey - Robert Wood Johnson Medical School
Ethics of communicating scientific findings on autism risk	$25,000	Drexel University School of Public Health
Gene-environment interactions in the pathogenesis of autism-like neurodevelopmental damage: A mouse model	$60,000	Johns Hopkins University School of Medicine
Genetic and epigenetic interactions in a mouse model for autism	$60,000	David Geffen School of Medicine at University of California, Los Angeles
Genetic epidemiology of autism spectrum disorders	$177,900	Yale University
Genetic investigation of cognitive development in autistic spectrum disorders	$184,045	Massachusetts General Hospital
Genetics of serotonin in autism: Neurochemical and clinical	$377,097	University of Illinois at Chicago
Genitourinary infections during pregnancy and risk of epilepsy, autism, and ADHD	$91,450	University of South Carolina Research Foundation
Genome-wide analyses of DNA methylation in autism	$400,000	Massachusetts General Hospital
Identical twins discordant for autism: Epigenetic (DNA methylation) biomarkers of non-shared environmental influences	$100,000	Institute of Psychiatry, King's College London
Identification of aberrantly methylated genes in autism: The role of advanced paternal age	$499,780	Research Foundation for Mental Hygiene, Inc.
Imaging autism biomarkers + risk genes	$198,473	University of California, San Diego
Interaction between MEF2 and MECP2 in the pathogenesis of autism spectrum disorders - 1	$262,845	Burnham Institute

Project Title	Funding	Institution
Interaction between MEF2 and MECP2 in the pathogenesis of autism spectrum disorders -2	$262,845	Burnham Institute
Language and social communication in autism - 1	$2,576	University of California, Los Angeles
Language and social communication in autism - 2	$5,153	University of California, Los Angeles
Linking autism and congenital cerebellar malformations	$60,000	University of Chicago
Mechanisms for 5-HTT control of PPI and perseverative behavior using mouse models	$345,375	University of Chicago
Microglia as biosensors and effectors of neurodysfunction	$105,716	University of California, Riverside
Murine genetic models of autism	$172,389	Vanderbilt University
Neurodevelopmental biology and gender differences in autism	$8,137	Medical University of South Carolina
Neurogenic growth factors in autism	$150,000	Yale University
Neuroimaging & symptom domains in autism	$5,153	University of California, Los Angeles
Neuroimaging of autism spectrum disorders	$2,576	University of California, Los Angeles
Orbitofrontal-limbic circuit: Ontogeny and early dysfunction	$28,536	Emory University
Oxytocin and social attachment	$21,379	Emory University
Perceptual and cognitive processing in autism spectrum disorders	$29	Indiana University-Purdue University Indianapolis
Project 3: Neurodevelopmental toxicology of autism	$136,640	University of California, Davis
Prostaglandins and brain development: A link between inflammation and autism	$112,500	University of Maryland, Baltimore
PUFA levels among children with autism	$12,485	Cincinnati Children's Hospital Medical Center
Rare variant genetics, contactin-related proteins and autism	$330,463	Yale University
Structural and functional neural correlates of early postnatal deprivation	$145,003	Wayne State University
Targeting genetic pathways for brain overgrowth in autism spectrum disorders	$289,513	University of California, San Diego
The pathogenesis of autism: Maternal antibody exposure in the fetal brain	$110,000	The Feinstein Institute for Medical Research
The role of the neurexin 1 gene in susceptibility to autism	$150,000	Massachusetts General Hospital/Harvard Medical School
Towards identifying the pathophysiology of autistic syndromes	$12,500	Keystone Symposia
